

Seal Translator

Made by the project: [BIDUSA](#)

Made by: [D4vsus](#)

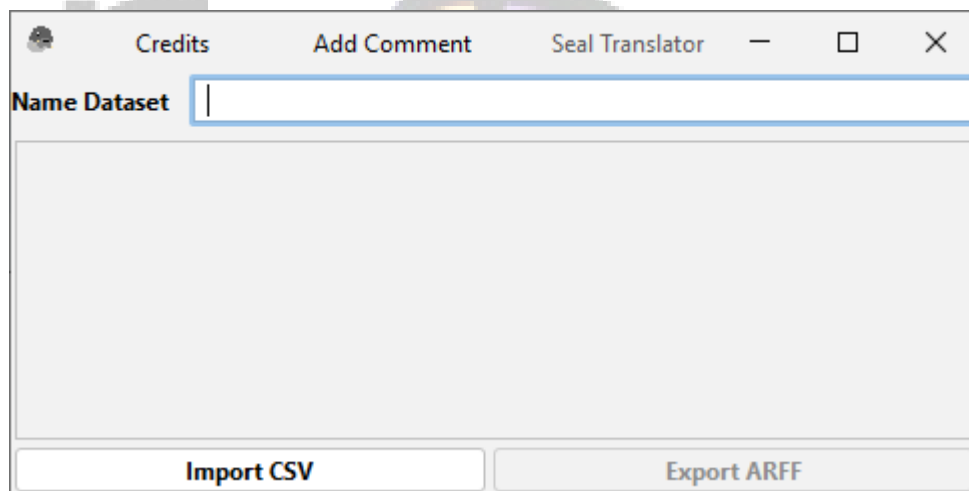

How to use it:

Let's export a CSV to ARFF

Here is the dataset we are going to export:

```
NUM 1;NUM 2  
1;1  
5;3
```

- Upon launching the application, you will see the following window:

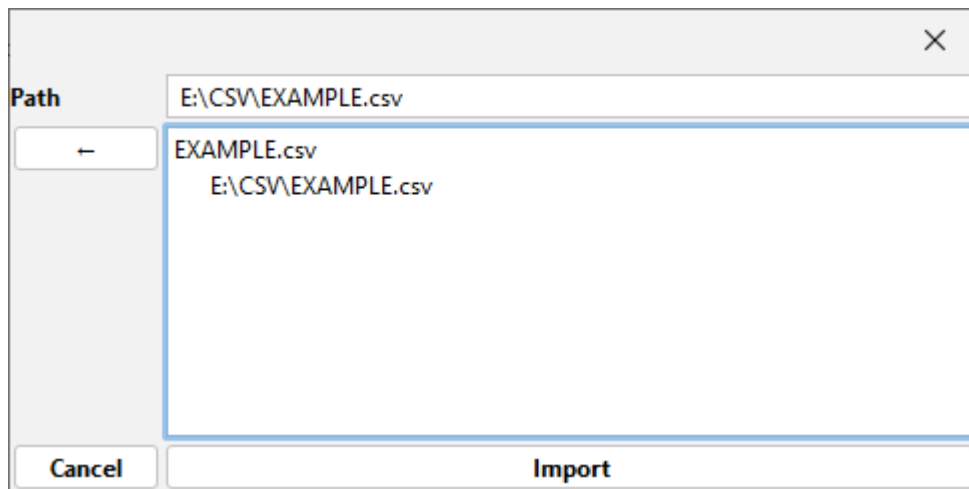

- Click on **Import CSV** or press **Alt+I**. A new window will appear

- To move to a previous directory, click the **left arrow** or press **Alt+B**.
- If you wish to cancel, click the **Cancel** button or press **Alt+C**.

- We Navigate to the folder where your CSV file is located.

- Select the CSV file and click on **Import** or press **Alt+I**. Notice that the file path now matches the selected file.

- After importing, the main window will display:

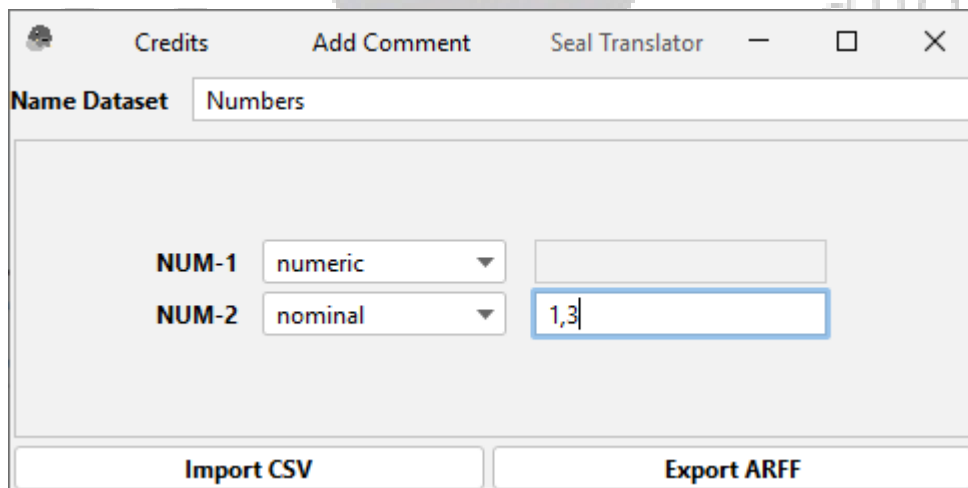

The screenshot shows a window titled "Credits", "Add Comment", and "Seal Translator". It has a "Name Dataset" field which is empty. Below it are two rows: "NUM-1" and "NUM-2", each with a "Select attribute..." dropdown menu and an empty text box. At the bottom are two buttons: "Import CSV" and "Export ARFF".

- We write the name of the dataset and select the attributes type:

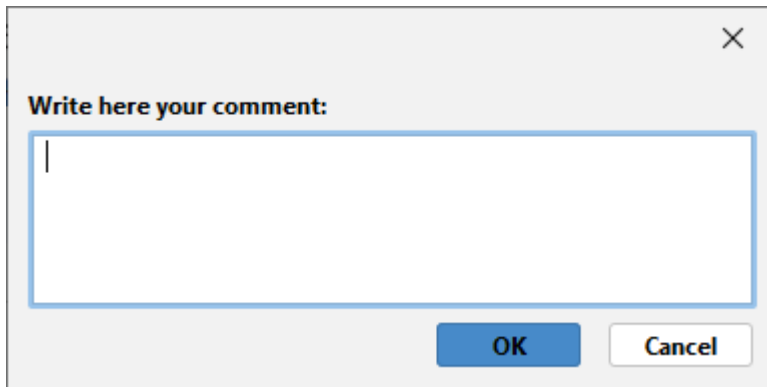

The screenshot shows the same window as before, but now the "Name Dataset" field contains the text "Numbers". The "NUM-1" and "NUM-2" dropdown menus are now set to "numeric". The "Import CSV" and "Export ARFF" buttons remain at the bottom.

- To set an attribute as nominal, select **nominal** option and write the possible cases:

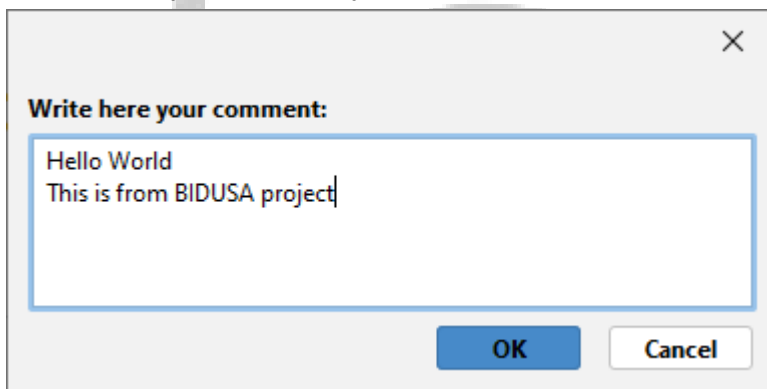

The screenshot shows the same window as before, but now the "NUM-2" dropdown menu is set to "nominal". The text box next to it contains the text "1,3". The "Import CSV" and "Export ARFF" buttons remain at the bottom.

- To add comments to the file click in **Add Comment** or **Alt + A**

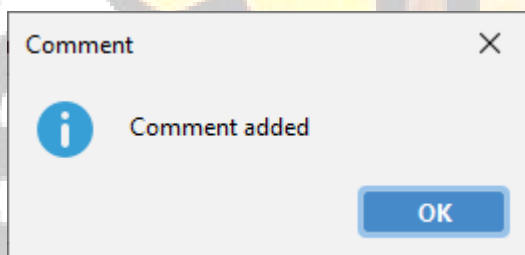

A screenshot of a dialog box titled 'Write here your comment:'. It features a large text input field with a cursor at the beginning. At the bottom right, there are two buttons: 'OK' (blue) and 'Cancel' (white with a blue border). A close button (X) is in the top right corner.

- Here you can write your own comment, for example:

A screenshot of the same dialog box, now containing the text 'Hello World' and 'This is from BIDUSA project' on two lines. The 'OK' and 'Cancel' buttons are at the bottom right, and a close button (X) is in the top right corner.

- To save the comment click **OK** or **Alt + Enter**, we will see the next window:

A screenshot of a smaller dialog box titled 'Comment'. It contains an information icon (i) and the text 'Comment added'. At the bottom right, there is an 'OK' button. A close button (X) is in the top right corner.

- To exit and delete click **Cancel** or **Alt + Esc**

- Then click on **Export** or press **Alt+E**.

- The ARFF file will be created in the same directory as the CSV file.

Este equipo > Nuevo vol (E:) > CSV		Buscar en CSV		
Nombre		Fecha de modificación	Tipo	Tamaño
lo personal	EXAMPLE.arff	19/06/2024 13:55	ARFF Data File	1 KB
	EXAMPLE.csv	19/06/2024 13:45	Archivo de valores...	1 KB
